#HEYNICEBODY

45+ Years of Racing History

YESTERDAY, TODAY & TOMORROW... ALWAYS THE BEST!

Five Star Race Car Bodies, a division of Five Star Fabricating, Inc., was established in the late 1970s by Carl Schultz & Fran Prestay. The company began as a side job for them in response for a need for innovative sheet metal products in the stock car racing industry. From their '79 Camaro body, the product line quickly diversified to include durable thermoformed molded plastics; lightweight fiberglass; and advanced composite race car body components. Through ongoing development we perfected the art of formed windows. Our engineers devised improvements in material composition and coatings, which also led to the development of our own superior line of polycarbonate. Our racing windows are now #1 in all motorsports. As we continue to diversify into new markets, we remain dedicated to maintaining our deep roots in auto racing, by putting our experience & expertise to work for you by providing a complete line of the greatest racing products for years to come.

» *Headquarters*

Our clean and modern 6 building campus spans over 300,000 sq feet of floorspace and is built on 44 acres in beautiful Twin Lakes, WI. This ever evolving facility features the best production equipment & manufacturing processes to achieve the highest standards.

» *'79 Camaro*

Carl & Fran's first production of the 1979 Camaro. Word of mouth and later a small ad in Stock Car Racing Magazine led to a tremendous response from racers across the country.

» *ISO Certified*

Celebrating our 12th year of ISO 9001:2015 Certification. We are proud of the continuous improvements that make our production processes faster and more efficient while reducing waste along the way. ISO is the American Standard for quality management systems. For us, it is all about delivering the highest quality products to our customers.

» *Family Owned & Operated*

We are proud to be a family-owned and operated business, dedicated to quality and service. Carl, our founder, remains actively involved each day, sharing his expertise and passion. Today, his children, Corey, Garrett & Haley, along with Corey’s wife Heidi, are leading the way, carrying on his legacy & commitment to excellence.

» *Connecting With Racers*

Every year, we showcase groundbreaking designs at the PRI Show, demonstrating our commitment to pushing the limits of performance and durability. Beyond the show, our dedicated team attends over 100 races annually, providing racers with the support & attention they need.

» *The Future*

After 4 decades, Five Star established itself as the leader across multiple motorsports markets. As we strive to stay on the cutting edge in products and service, we’re excited to announce that in 2024, we broke ground on a state-of-the-art distribution facility in Concord, North Carolina. This facility will serve as our new Dealer Service Center, currently located in Troutman.

Advanced Composites

LIGHTWEIGHT, RIGID & EXTREMELY DURABLE

WHY FIVE STAR IS BETTER!

CUSTOM ENGINEERED MATERIALS

- » Incredibly strong shear & tear resistant
- » Flame retardant resins in most applications
- » Rigid no surface deflection at high speeds
- » Durable parts do not break apart

PRECISION WEIGHT CONTROL

- » Parts made with the tightest weight tolerances

FLAWLESS FINISH

- » Excellent surface finish and wrapped in a protective film

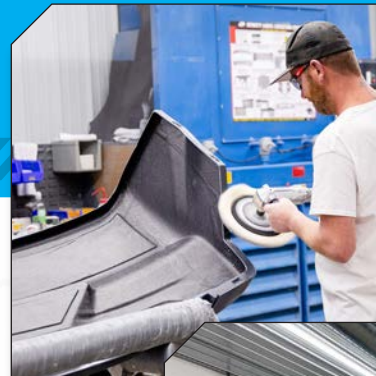

OUR PROPRIETARY FABRIC & RESIN BLENDS ARE MADE WITH A SUPERIOR MANUFACTURING PROCESS THAT MANY TRY TO EMULATE, BUT FAIL TO REPLICATE!

ENVIRONMENTALLY SOUND MANUFACTURING

- » All parts are manufactured in our clean EPA & OSHA compliant facility

EXCELLENT SHAPE TOLERANCE FOR REPEATABLE FIT

- » In house pattern & tool production assures great shape control

Ultraglass Composite

THE HIGH-TECH ALTERNATIVE TO OTHER FIBERGLASS COMPOSITES

FIBERGLASS PANELS REDEFINED!

UNMATCHED STRENGTH

- » Unmatched impact resistance; no other composite is stronger.
- » Panels that deflect 300% further before breaking equals less debris on the race track and less time in the pits
- » No surface deflection at high speeds

SUPREME FINISH

- » All panels are made with a smooth inner surface
- » Most panels feature a black inner finish to eliminate painting
- » Superior surface finish & wrapped in a protective plastic film
- » Excellent shape tolerance with a repeatable fit

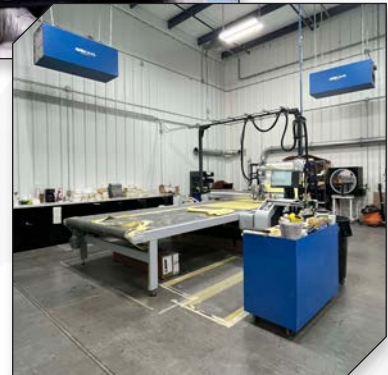

WITH AN UNMATCHED PERFORMANCE, OUR EXCLUSIVE ULTRAGLASS COMPOSITE BLEND OUTPERFORMS ALL OTHER COMPOSITE PANELS ON THE MARKET!

ENVIRONMENTALLY SOUND MANUFACTURING

- » 93% reduction in harmful emissions during the manufacturing process
- » All parts are manufactured in our clean EPA & OSHA compliant facility

PRECISION WEIGHT CONTROL

- » Can be lighter than standard fiberglass composite panels
- » Ability to hold much tighter weight tolerances

High-Impact Plastics

UNSURPASSED IMPACT RESISTANCE & DURABILITY

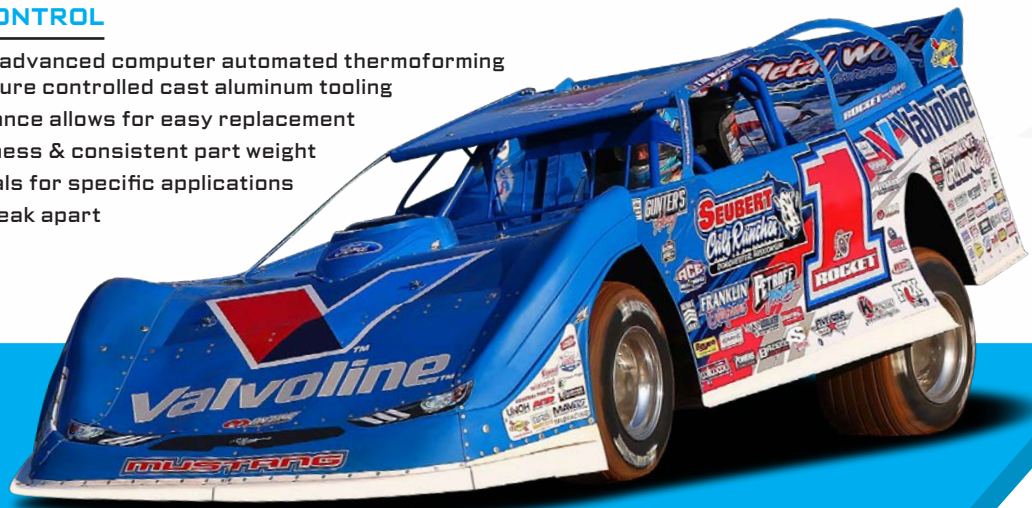

YOU WON'T FIND A BETTER PLASTIC!

ENGINEERED TO WITHSTAND EXTREME CONDITIONS

- » High elongation provides superior flexibility & structural integrity
- » Made with our own state of the art proprietary blend of plastic material
- » Some plastics are fire resistant & pass industry testing standards
- » We match the plastic materials for specific applications

SUPERIOR SHAPE CONTROL

- » Parts are formed using advanced computer automated thermoforming machines with temperature controlled cast aluminum tooling
- » Consistent shape tolerance allows for easy replacement
- » Shaped with even thickness & consistent part weight
- » Matched plastic materials for specific applications
- » Durable parts do not break apart

THIS FEATURED PLASTIC IS USED IN THE MD3 BRAND. THE UNDISPUTED BEST BODY PANELS IN ALL OF DIRT RACING!

EXCELLENT SHAPE TOLERANCE FOR REPEATABLE FIT

- » In house forming assures great shape control

THE MD3 ADHESION PROMOTER WORKS BEST

- » Our MD3 brand Adhesion Promoter is specifically engineered for the special plastic materials we use.

Polycarbonate Windows

THE #1 CHOICE BY TOP RACERS & TEAMS WORLDWIDE

SUPERIOR OPTICS & SAFETY!

WE CAN SHAPE FORM ANY WINDOW

- » We can meet all of your polycarbonate & acrylic needs, not just racing windows
- » We can form windows from factory glass for limited quantity orders
- » We offer in-house design & mold building for any windows you need
- » CNC pattern cutting

BETTER THAN GLASS

- » Up to 50% weight savings compared to glass
- » Can be formed into multiple shapes or styles
- » Multiple thickness & tint options available
- » Enhances driver safety

THE #1 LINE OF WINDOWS USED IN ALL OF MOTORSPORTS
BECAUSE OF IT'S SUPERIOR OPTIC CLARITY
AND UNMATCHED SAFETY!

PRECISION FIT GUARANTEED

- » Proprietary forming process ensures unrivaled optical clarity and accurate shape control
- » CNC routing ensures a perfect drop-in fit, every time

SUPERIOR OPTICAL CLARITY & DURABILITY

- » We use only the highest Optical Grade Polycarbonate
- » The highest abrasion, chemical and UV resistance
- » Windows printed with a durable black ink border
- » We have invested in our own custom built coating facility. Our coatings are robotically applied in an environmentally controlled, clean room system. We have the capability to apply a variety of coating technologies to meet a vast array of performance characteristics from hard coats to anti-fog properties. Our coating systems can be applied to either flat or complex shape components offering a solution for any application.

ENGINEERED THROUGH THE DRIVER'S EYES

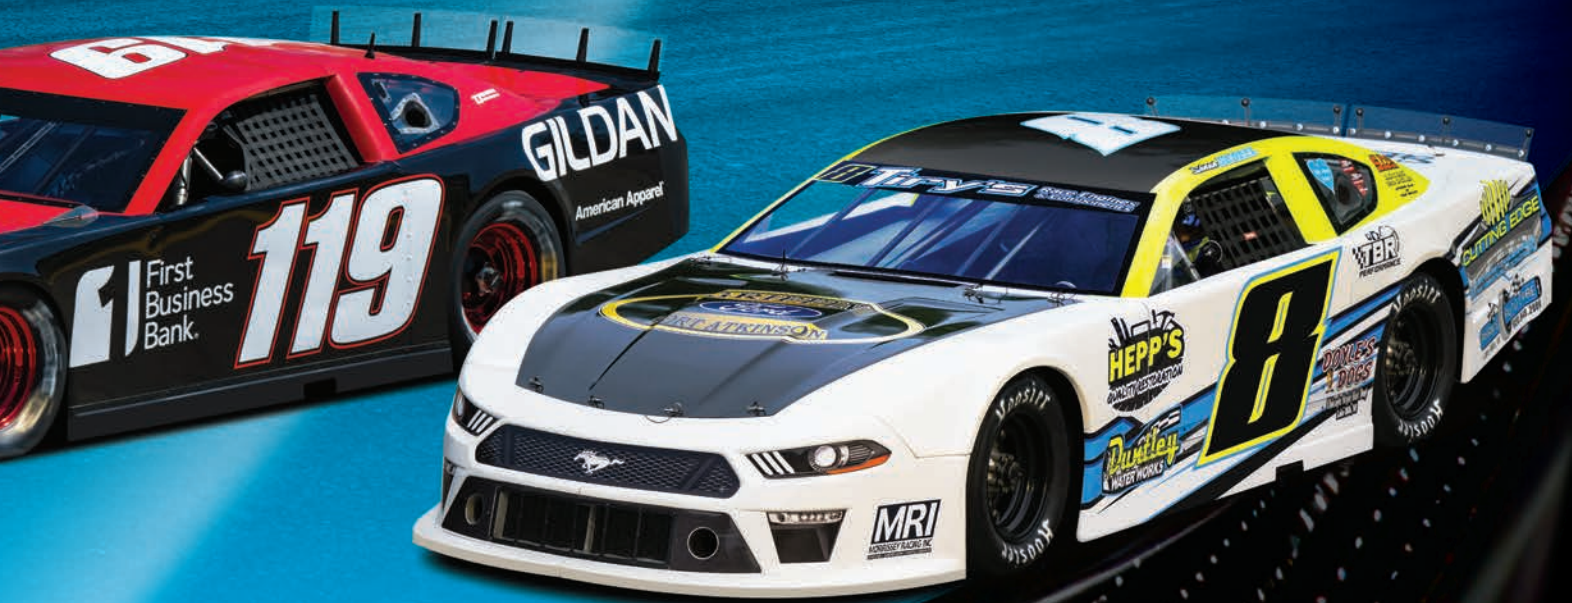

ABC NEXTGEN

THE MOST ADVANCED BODY ON THE MARKET

The ABC NextGen Body redefines high-performance engineering, combining unmatched durability with cutting-edge aerodynamics for superior results on the track. Designed for easy installation and minimal setup, this body gives racers the competitive edge without the hassle.

- » Additional engine clearance with more fender clearance for suspension travel
- » Exceptional aero balance achieved and validated through extensive wind tunnel & on track testing
- » Wider greenhouse increases driver access & accommodates wider roll cages
- » Enhanced safety with the use of flame-retardant resin in the Advanced Lightweight Composite Greenhouse
- » Two-piece greenhouse includes a built-in cowl & deck lid filler
- » All panels feature a consistent fit with mounting flanges, locating tabs, and minimal trimming for easy installation & replacement
- » Common body has 3 nose options for brand identity
- » Available in 4 color options

BODY DIMENSIONS

FIVE STAR BODIES ARE DESIGNED TO MAINTAIN PRECISE FIT WITH OPTIMIZED AERODYNAMICS!

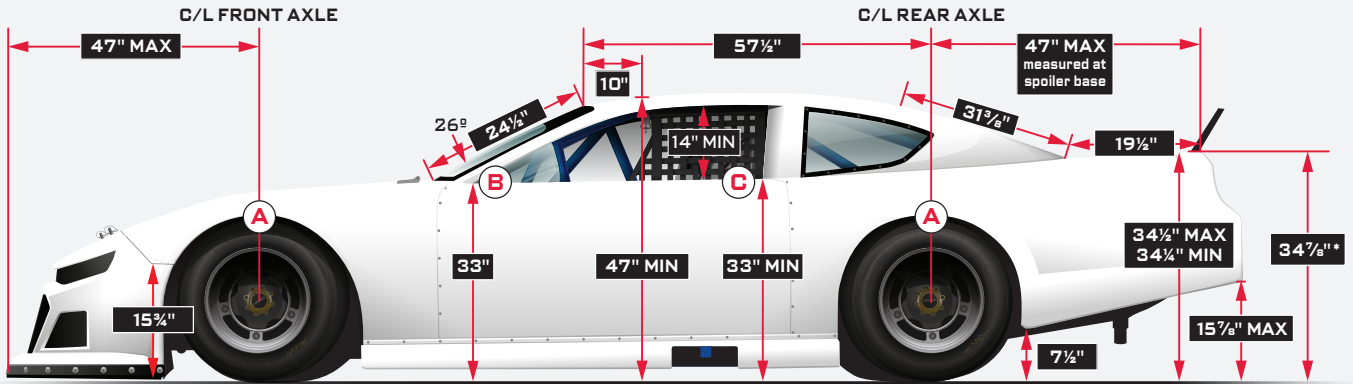

WIDTHS

A	B	C
79½" MAX"	68"	67"

Body Width: Measured at wheel wells

Door to Door Width: Measured at A-posts & inside edge of doors, measured through car

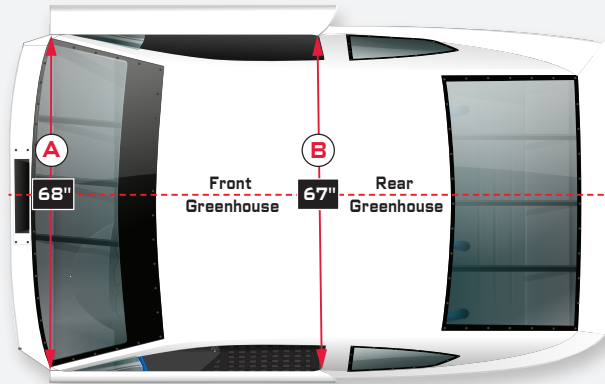

Door to Door Width: Measured at B-posts & inside edge of doors, measured through car

NOTES:

1. If the Roof Height (10" back from windshield), Door Height (rear), Quarter Panel, or Bumper Cover Height dimensions are higher than the stated minimum dimensions, all four must increase by the same amount.

2. Must fit centerline template within allowable tolerance. *Measured at the seam of bumper cover at deck lid intersection, +/- 1/4"

CHASSIS	ROOF HEIGHT	TREAD WIDTH	WHEELBASE
Offset/ Straight Rail	47"	66" MAX	101-106"

ENGINEERED THROUGH THE DRIVER'S EYES

ORIGINAL ABC BODY

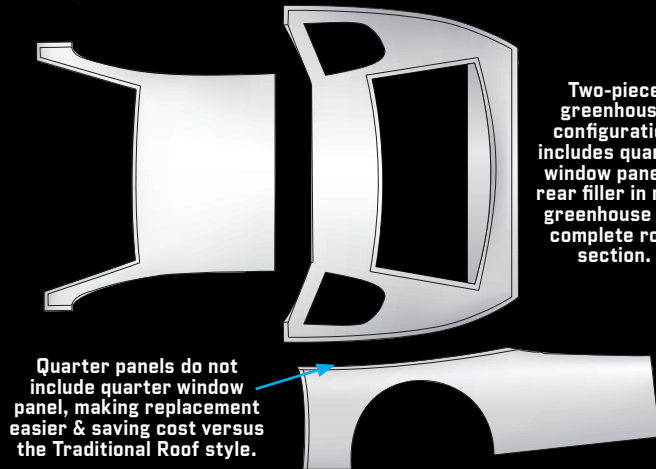

CLASSIC DESIGN, MODERN PERFORMANCE

The Original ABC Body offers two roof options: the Greenhouse, with built-in locating tabs for quick installation & durable plastic quarter panels, and the Traditional design, with integrated quarter panels with a separate deck lid filler panel. Both ensure a seamless fit & enhanced performance, making it the ideal choice for any racer.

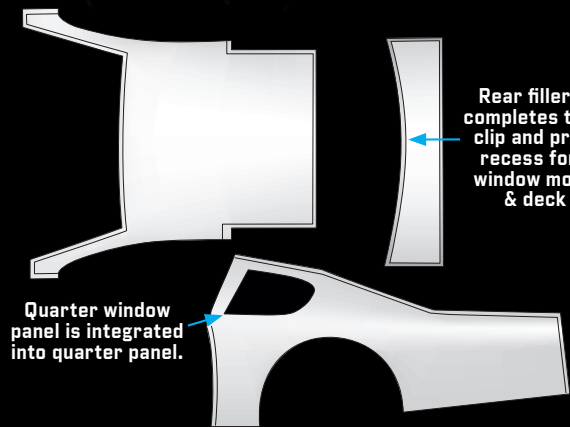

TWO-PIECE GREENHOUSE

Quarter panels do not include quarter window panel, making replacement easier & saving cost versus the Traditional Roof style.

Two-piece greenhouse configuration includes quarter window panel & rear filler in rear greenhouse for complete roof section.

TRADITIONAL 1-PIECE ROOF

Quarter window panel is integrated into quarter panel.

Rear filler panel completes the rear clip and provides recess for rear window mounting & deck lid.

- » The most durable ABC body on the market
- » Common body has 4 different style noses
- » Available in 4 color options

ORIGINAL ABC

BODY DIMENSIONS

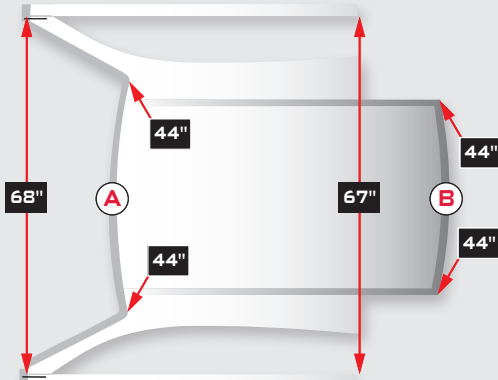

FIVE STAR BODIES ARE DESIGNED TO MAINTAIN PRECISE FIT WITH OPTIMIZED AERODYNAMICS!

WIDTHS

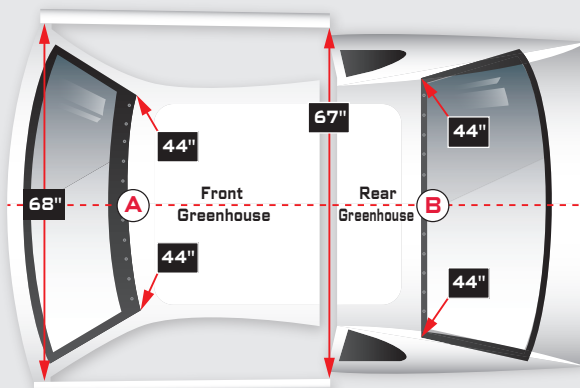

A	B	C
79½" MAX	68"	67"
Body Width: Measured at wheel wells	Door to Door Width: Measured at A-posts & inside edge of doors, measured through car	Door to Door Width: Measured at B-posts & inside edge of doors, measured through car

TRADITIONAL ROOF

GREENHOUSE

NOTES:

1. If the Roof Height (10" back from windshield), Door Height (rear), Quarter Panel, or Bumper Cover Height dimensions are higher than the stated minimum dimensions, all four must increase by the same amount.
2. Must fit centerline template within allowable tolerance. *Measured at the seam of bumper cover at deck lid intersection, +/-1/4"

CHASSIS	ROOF HEIGHTS	TREAD WIDTH	WHEELBASE
Offset/ Straight Rail	A 47" B 45½"	66" MAX	101-108"

THE PERFECT SURFACE PREP FOR PLASTIC

MD3 ADHESION PROMOTER
FAST DRYING & NON-SANDING

MD3 ADHESION PROMOTER

- » Specifically engineered adhesion promoter assures proper paint bonding to our special plastic
- » Other automotive grade primers on the market may not work at all or cause severe paint flaking
- » Improves adhesion of vinyl by enhancing the bond between adhesive on the vinyl and the substrate, for a more durable, long-lasting application
- » Comes in an aerosol spray can for quick and easy application
- » A single can coats approximately 5 individual parts

MD3 Adhesion Promoter	842	\$16
-----------------------	-----	------

» A MUST USE PRODUCT BEFORE PAINTING OR APPLYING VINYL ON ANY FIVE STAR PLASTIC PART

FIVE STAR PLASTIC WINDOW CLEANER

- » This specially formulated anti-static foaming spray contains no chemicals or abrasives that will cause damage to plastic
- » Lifts grease & grime, wipes off fast & easy to provide a streak-free clean & clear surface finish

Window Cleaner, 19oz Can	843	\$9.95
--------------------------	-----	--------

» FIVE STAR CLEANING TIPS!

- » ALWAYS AVOID USING ABRASIVE CLEANERS & CHEMICAL SOLVENTS THAT CAN EASILY CAUSE DAMAGE TO POLYCARBONATE WINDOWS
- » USE A MICROFIBER TOWEL FOR BEST, STREAK-FREE FINISH
- » TO PREVENT SCRATCHING & HAZING ON YOUR WINDOWS, NEVER SCRUB WITH BRUSHES OR ABRASIVE MATERIALS

ORIGINAL ABC BODY STYLES

BODY MOUNTING FIXTURES

MOUNT YOUR BODY FAST & EASY TO MAXIMIZE PERFORMANCE & TO PASS TECH INSPECTION!

It is the responsibility of all competitors to present a car that fits the templates within allowable tolerances and meets all dimensions as inspected by the "Referee." Be sure to download a free copy of the Official ABC Rulebook for body styles, panels, spoilers, windows, over hangs, roof height, proper placement of templates, and more!

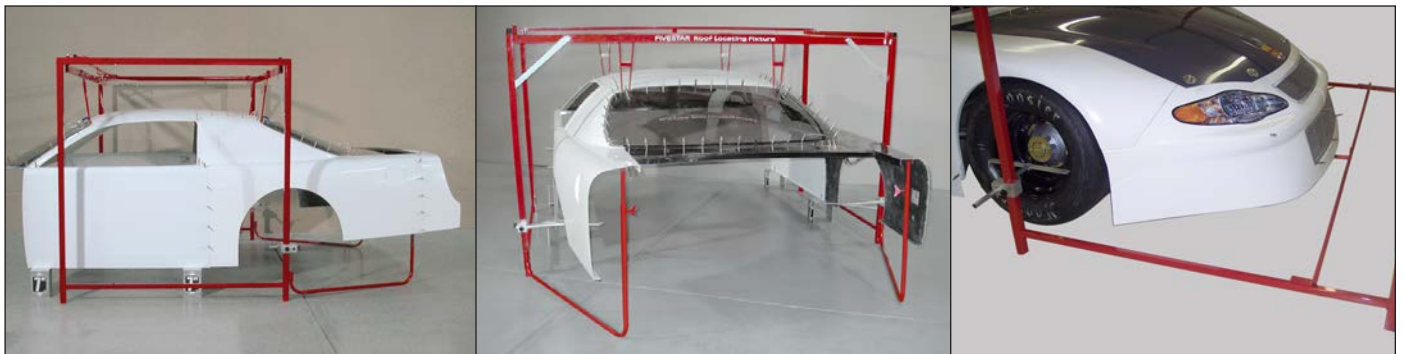

THE OFFICIAL REFEREE 2.0

- » Used by tracks and associations throughout North America for body tech inspection
- » Measure the front overhang of the nose, tread width, roof, door, and deck height, rear overhang, wheelbase, and engine setback
- » Adjustable laser option for accurate measurements of front overhang and engine setback
- » Magnetic, tinted polycarbonate wheel plates for better attachment to wheels
- » Includes Tech Inspector's checklist
- » **NOT NECESSARY FOR MOUNTING A BODY.** A body can easily be installed within specs by using the body dimensions sheets & templates

Referee 2.0	TT-200-00	\$2,050
Wheel Locator, with magnets (SET OF 4) (SOLD SEPARATELY)	TT-200-WL	\$98
Laser Measurement Assembly (SOLD SEPARATELY)	TT-200-LB	\$150
Body Centerline Device (SOLD SEPARATELY)	TT-200-BC	\$195

ROOF LOCATING FIXTURE

- » THE FAST & EASY WAY TO MOUNT YOUR COMPLETE BODY WITHOUT THE CHASSIS UNDERNEATH
- » This time-saving device has adjustable quarter panel arms and makes locating the roof on your chassis a simple process
- » Allows exact fit for wheel opening locations, body dimensions, and inspection templates to fit series specs
- » Pre-fits from the cowl to the bumper cover, then can be lifted easily on top of the chassis for final fit
- » Comes in a black powder-coat finish and includes roof brackets, door height blocks and assembly instructions

Roof Locating Fixture (includes Roof Brackets & Door Height Blocks)	809P	\$898
Replacement Roof Brackets	809-1P	\$71
Replacement Door Height Blocks, 7" tall	809-HB	\$38

ENGINEERED THROUGH THE DRIVER'S EYES

NEXTGEN LATE MODEL STOCK

BUILT FOR CHAMPIONS & ENGINEERED FOR VICTORY

This body is the latest advancement in high-performance engineering, raising the bar for durability & aerodynamics in the late model stock division. Designed for hassle-free installation, it delivers the championship-winning edge every racer needs.

- » Enhanced safety with the use of flame-retardant resin in the Ultraglass Composite Greenhouse
- » Exceptional aero balance achieved and validated through extensive wind tunnel & on track testing
- » All panels feature a consistent fit with mounting flanges, locating tabs, and minimal trimming for easy installation and replacement
- » Commonly raced in NASCAR LMSC divisions & CARS Tour Series
- » Two-piece greenhouse includes a built-in cowl & deck lid filler
- » Common body has 3 nose options for brand identity
- » Designed to fit perimeter-style chassis
- » Available in 4 color options

BODY DIMENSIONS

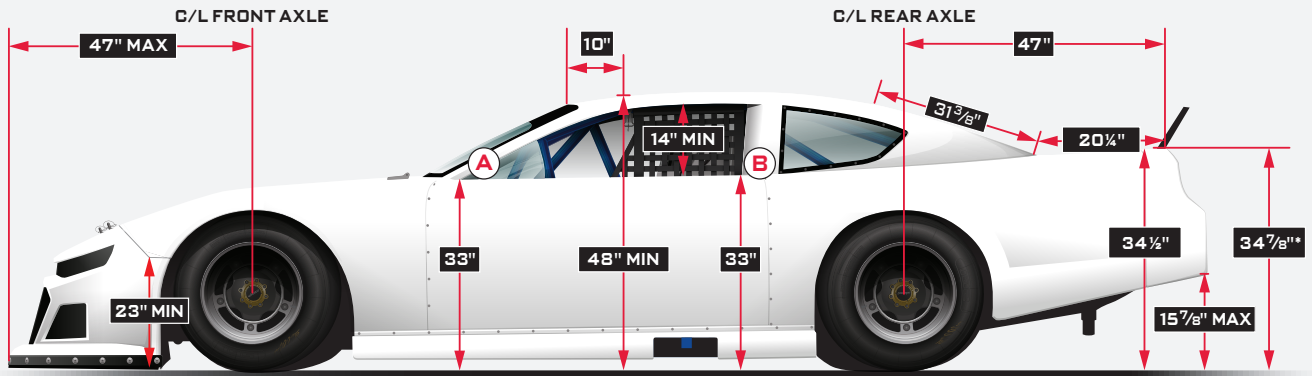

FIVE STAR BODIES ARE DESIGNED TO MAINTAIN PRECISE FIT WITH OPTIMIZED AERODYNAMICS!

WIDTHS

A	B
67"	65½"

Door to Door Width: Measured at A-posts & inside edge of doors, measured through car

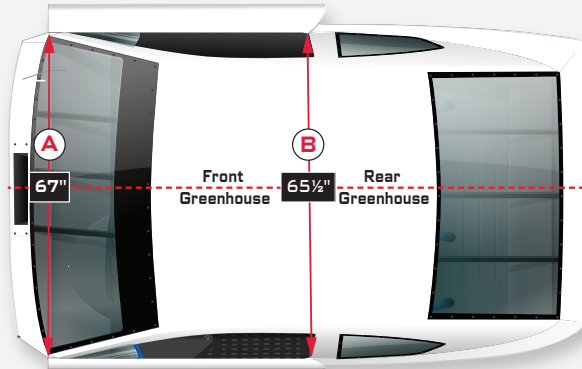

Door to Door Width: Measured at B-posts & inside edge of doors, measured through car

NOTES:

1. If the Roof Height (10" back from windshield), Door Height (rear), Quarter Panel, or Bumper Cover Height dimensions are higher than the stated minimum dimensions, all four must increase by the same amount.

2. Must fit centerline template within allowable tolerance. *Measured at the seam of bumper cover at deck lid intersection, +/- 1/4"

CHASSIS	ROOF HEIGHT	TREAD WIDTH	WHEELBASE
LMSC Perimeter	48"	Up to 64½"	Up to 106"

BODY MOUNTING FIXTURES

MOUNT YOUR BODY FAST & EASY TO MAXIMIZE PERFORMANCE & TO PASS TECH INSPECTION!

It is the responsibility of all competitors to present a car that fits the templates within allowable tolerances and meets all dimensions as inspected by the "Referee." Be sure to download a free copy of the Official ABC Rulebook for body styles, panels, spoilers, windows, over hangs, roof height, proper placement of templates, and more!

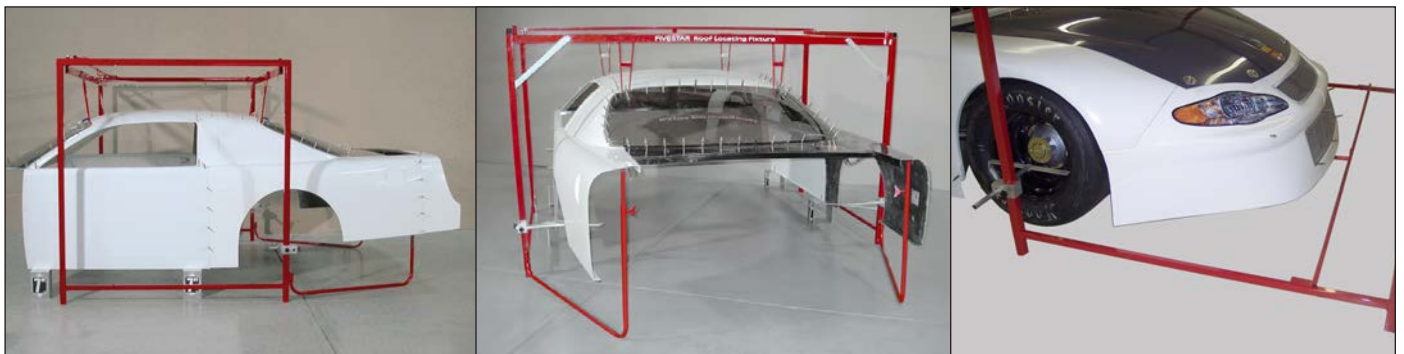

THE OFFICIAL REFEREE 2.0

- » Used by tracks and associations throughout North America for body tech inspection
- » Measure the front overhang of the nose, tread width, roof, door, and deck height, rear overhang, wheelbase, and engine setback
- » Adjustable laser option for accurate measurements of front overhang and engine setback
- » Magnetic, tinted polycarbonate wheel plates for better attachment to wheels
- » Includes Tech Inspector's checklist
- » **NOT NECESSARY FOR MOUNTING A BODY.** A body can easily be installed within specs by using the body dimensions sheets & templates

Referee 2.0	TT-200-00	\$2,050
Wheel Locator, w/magnets (SET OF 4) (SOLD SEPARATELY)	TT-200-WL	\$98
Laser Measurement Assembly (SOLD SEPARATELY)	TT-200-LB	\$150
Body Centerline Device (SOLD SEPARATELY)	TT-200-BC	\$195

ROOF LOCATING FIXTURE

- » THE FAST & EASY WAY TO MOUNT YOUR COMPLETE BODY WITHOUT THE CHASSIS UNDERNEATH
- » This time-saving device has adjustable quarter panel arms and makes locating the roof on your chassis a simple process
- » Allows exact fit for wheel opening locations, body dimensions, and inspection templates to fit series specs
- » Pre-fits from the cowl to the bumper cover, then can be lifted easily on top of the chassis for final fit
- » Comes in a black powder-coat finish and includes roof brackets, door height blocks and assembly instructions

ENGINEERED THROUGH THE DRIVER'S EYES

PAVEMENT MODIFIED

THE ULTIMATE IN AERODYNAMIC DESIGN

This body is equipped with an aerodynamically advanced roof featuring built-in vortex generators, engineered to optimize airflow for peak performance. In addition to its high-performance design, this body is ready to fit almost any short track modified chassis & is approved for all major modified series.

- » Rear wheel flares enhance aerodynamics & add rigidity to the side while protecting the tires from being cut
- » This roof has a built in cowl panel & separate rear window mounting flange
- » Roof features built in vortex generators to enhance airflow
- » Repeatable fit for all replacement panels
- » Fits most short track modified chassis
- » Roof design is the easiest to install
- » Legal in all major modified series
- » Panels available in 4 color options

OUTLAW LATE MODEL

FEATURED BODY ACCESSORIES

PLASTIC NOSE FILLER PANEL:

- » 80" long by 30" tall
- » Flat high-impact plastic sheet deflects debris and resists chipping, denting, and bending.
- » Outperforms traditional aluminum panels in every way, this panel does not dent
- » For more details & ordering info, see page 56

OUTLAW SPORTSMAN COMPOSITE ROOF:

- » Strong! Holds up to high speeds with minimal bracing
- » Two options: Standard Composite & Advanced Lightweight Composite made with flame retardant resin for added driver safety
- » For more details & ordering info, see page 56

LOWER NOSE SUPPORT:

- » Add another layer of support with this lightweight, durable polyethylene plastic valance support
- » This lightweight, durable plastic nose support is .352" thick and adjusts from 86" to 96" long & can be trimmed to fit
- » For more details & ordering info, see page 56

UNIVERSAL BODY MOUNTING KIT:

- » Universal fit that can be used anywhere on a race car
- » Plastic kit features Black Delrin washers that withstand repeated impact and stress
- » For more details & ordering info, see page 147

» GO TO PAGES 144-167 TO SEE ALL ACCESSORIES FOR THIS BODY STYLE

ENGINEERED THROUGH THE DRIVER'S EYES

NORTH AMERICAN SPORTSMAN

THE SUPERIOR DESIGN FOR SPORTSMAN RACING

This is the spec body for the NASCAR Mexico Series and the top choice among competitors seeking cutting-edge performance. This body is a hassle free solution for any racer, setting a new standard for durability & aerodynamics in the sportsman division.

- » Universally designed for most sportsman divisions across North America
- » All panels have consistent, repeatable fit for effortless installation & replacement
- » 2-piece greenhouse includes a built-in cowl & deck lid filler
- » Common body has 3 nose options for brand identity
- » Panels feature mounting flanges & locating tabs
- » Designed for metric style chassis
- » Minimal trimming required
- » Available in 2 color options

BODY MOUNTING FIXTURES & TEMPLATES

MOUNT YOUR BODY FAST & EASY TO MAXIMIZE PERFORMANCE & TO PASS TECH INSPECTION!

ROOF LOCATING FIXTURE

- » THE FAST & EASY WAY TO MOUNT YOUR COMPLETE BODY WITHOUT THE CHASSIS UNDERNEATH
- » This time-saving device has adjustable quarter panel arms and makes locating the roof on your chassis a simple process
- » Allows exact fit for wheel opening locations, body dimensions, and inspection templates to fit series specs
- » Pre-fits from the cowl to the bumper cover, then can be lifted easily on top of the chassis for final fit
- » Comes in a black powder-coat finish and includes roof brackets, door height blocks and assembly instructions

Roof Locating Fixture (includes Roof Brackets & Door Height Blocks)	809P	\$898
Replacement Roof Brackets	12001-72231	\$71
Replacement Door Height Blocks, 7" tall	809-HB	\$38

NORTH AMERICAN SPORTSMAN TEMPLATES ENSURE A CORRECT FIT FOR OPTIMUM AERODYNAMICS

- » Complete template set ensures body is installed correctly
- » Complete sets include: Body Centerline, Fenders, Nose Centerline, Nose Side-to-Side, Front & Rear Roof Side-to-Side
- » Nose and fender templates are specific to model
- » Common templates can check all models
- » Master sets available with templates for all models

Template, Complete Set, wood, Chevrolet	12131-82091	\$337
Template, Complete Set, wood, Ford	12321-82091	\$337
Template, Complete Set, wood, Toyota	12712-82091	\$337

BODY PANEL MOUNTING TOOLS

FIVE STAR PREMIUM AVEX STYLE RIVETS

- » The best quality on the market!
- » Five Star Rivets have a super-tight grip, won't spin out while drilling & pull much tighter than other, cheaper rivets.
- » For more details & ordering info, see page 146

CLECO KIT & PLIERS:

- » Cleco pliers & Cleco fasteners ensure perfect alignment every time
- » Clecos can be easily inserted with the cleco pliers to temporarily hold panels during the body mounting process
- » For more details & ordering info, see page 161

» FOR MORE BODY MOUNTING TOOLS, GO TO PAGES 144-167

2-PIECE UPPER & LOWER FENDERS ALLOWS FOR EXACT GROUND HEIGHT ADJUSTMENT

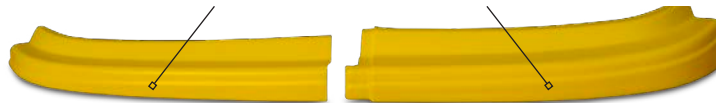

Right Fender has more clearance for tire travel to allow for lower mounting height.

Left Fender is raised for maximum downforce

Lower Fenders are separate for improved fit, have a tapered valance built-in, and are thicker for improved durability. Also adjustable to meet desired ground clearance.

Lower Aero Valance (below the nose) is tapered and is thicker for improved durability.

Separate lower right front fender for quick & easy replacement.

ENGINEERED THROUGH THE DRIVER'S EYES

RACING WINDOWS

THE #1 WINDOWS IN MOTORSPORTS

Explore the widest variety of racing windows in the industry. The list of options is endless! If you don't find what you are looking for, see our custom window section and build your own.

» **OPTICAL GRADE MATERIALS:**

Our exclusive grade of polycarbonate material is better than glass, developed exclusively for & only available at Five Star

» **EXCELLENT HARD-COATING:**

Our multiple coating types greatly enhance durability with abrasion & chemical resistance, along with UV & anti-fog protection

» **SCREEN PRINTED BLACK-OUT BORDERS:**

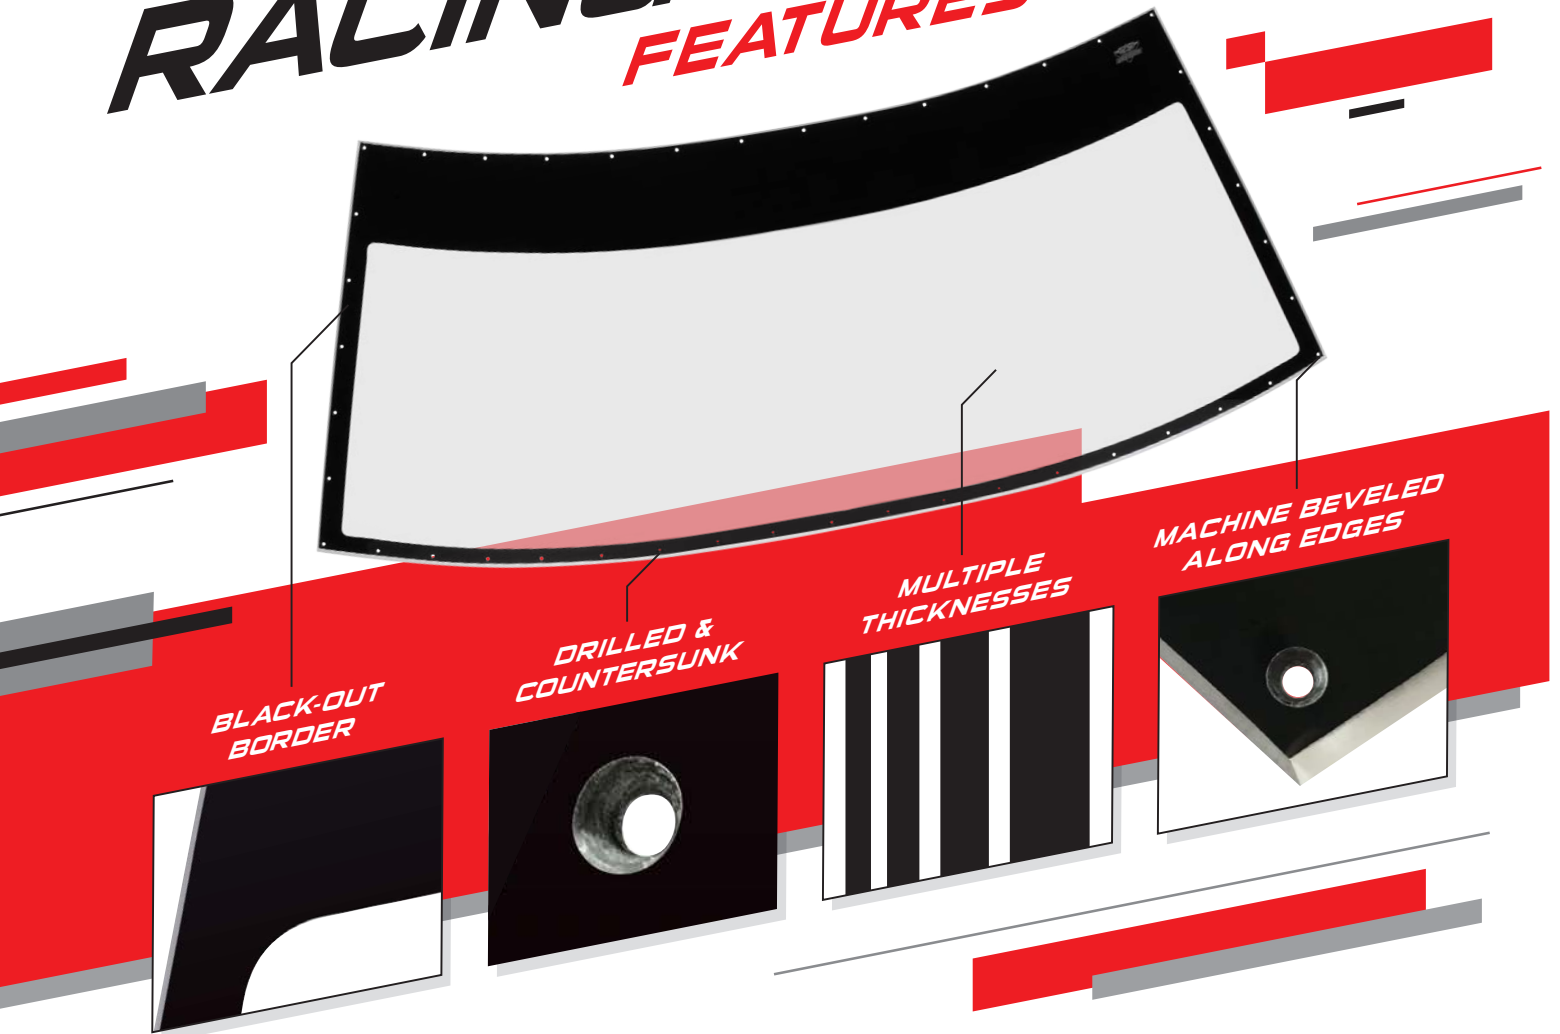

Our borders use a scratch resistant, non-flaking permanent ink for a clean & professional look, saving you hours of work

» **CNC TRIMMED FOR EASY INSTALLATION:**

Our windows are CNC cut to size with smooth, beveled edges & pre-drilled holes for a consistent, perfect fit

PREMIUM RACING WINDOWS

FEATURES & OPTIONS

MATERIAL:

- » Two Monolithic Polycarbonate options & thickness:
 - » Clear - 100% Light Transmission
 - » Tinted - 18% Light Transmission
- » Five Star SafeGuard Laminated Polycarbonate Thickness: 0.265"

COATED OR UNCOATED:

- » Mar-Resistant coated or uncoated (economy)
- » Coated windows last longer and save you money over time
- » Uncoated polycarbonate is cheaper but offers no protection against scratching, hazing, and the damaging effects of UV. Plus, cleaning an uncoated window can cause scratch marks that affect visibility.

EDGE TREATMENT:

- » Edges can be machine beveled and will fit exactly into the window frame

CUT:

- » Oversize: Typically cut 1-1/2 inches larger than the window frame; requires cutting, trimming, beveling and drilling
- » Precut to Fit: Straight-cut to fit exactly into the window frame

INSTALLATION OPTIONS:

- » Option 1: Installation holes are pre-drilled.
- » Option 2: Installation holes are pre-drilled & countersunk

BLACK-OUT BORDER:

- » Professional appearance is printed with ultra-durable, high-quality, scratch-resistant and non-flaking permanent ink.
- » Black-out borders are available on custom formed windows for higher-quantity production runs ONLY.

BUILD YOUR OWN CUSTOM WINDOWS

» CALL OUR SALES TEAM AT 262.877.2171 FOR YOUR CUSTOM WINDOW NEEDS!

CUSTOM WINDOW SPECIFICATIONS

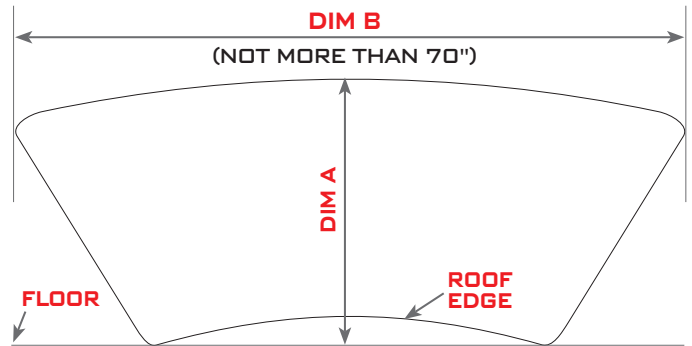

THESE TWO DIMENSIONS ARE NEEDED TO DETERMINE WHICH SHEET TO PURCHASE:

DIM A - THE HEIGHT: Place your window on end upon a level space with the roof edge down. Measure (DIM A), from the floor to the highest point

DIM B - THE WIDTH: Measure across the widest point (DIM B) to be sure that the width does not exceed 70"

» If DIM A is less than 39" use Sheet #1

» If DIM A is 39-47" use Sheet #2

MATERIAL	THICKNESS	SHEET #1	SHEET #2
Clear	.093"	\$317	\$363
Tint	.093"	N/A	\$436
Clear	.118" (1/8")	\$353	\$399
Tint	.118" (1/8")	N/A	\$479
Clear	.177" (3/16")	\$424	\$462
Clear	.236" (1/4")	\$505	\$616

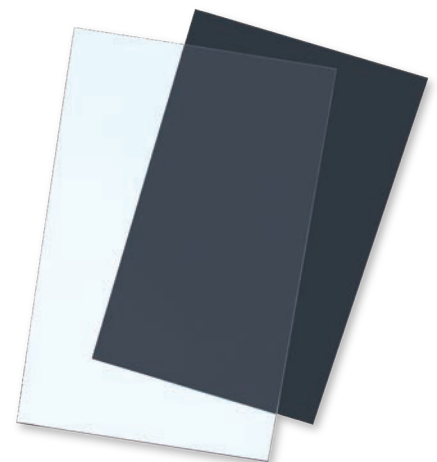

IMPORTANT INFORMATION:

- » Oversized molded sheets are typically 1-1/2" larger than stock (you cut it to fit)
- » Sheets are formed, not flat. Prices on this chart include all forming costs.
- » Contact our Five Star Sales Team for complete ordering information, or to determine whether or not factory glass window is needed for tooling purposes

POLYCARBONATE FLAT SHEETS

MAR-RESISTANT FLAT SHEETS CANNOT BE THERMOFORMED! Tint is dark gray with 18% light transmission. Custom sheet sizes are available upon request, and with a minimum order quantity.

WINDOW INSTALLATION KIT

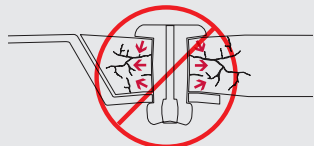

- » Using proper hardware provides the perfect fit & helps to increase the life of your window
- » Black oxide coated to prevent rust
- » Enough hardware to install a complete set of windows on one car
- » **Kit includes:** 120 6-32 1/2" & 16 6-32 3/4" flat head socket screws, 136 6-32 nylon locknuts, 1 long-arm hex key & 9/64" drill bit

Window Installation Kit	805	\$27
-------------------------	-----	------

IMPORTANT:

USING RIVETS APPLIES TOO MUCH PRESSURE TO YOUR WINDOW & WILL FRACTURE THE POLYCARBONATE

WINDOW INSTALLATION COUNTERSINK DRILL BIT

- » 3/8" diameter steel bit with a 1/4" shank, used for countersinking holes for window screw installation into polycarbonate
- » Not required for precut to fit, beveled, & drilled windows

Drill Bit	805-1	\$19
-----------	-------	------

FIVE STAR PLASTIC WINDOW CLEANER

- » This specially formulated anti-static foaming spray contains no chemicals or abrasives that will cause damage to plastic
- » Lifts grease, grime, and wipes off fast and easy to provide a streak-free clean and clear surface finish

Window Cleaner, 19oz Can	843	\$9.95
--------------------------	-----	--------

» FIVE STAR CLEANING TIPS!

- » ALWAYS AVOID USING ABRASIVE CLEANERS & CHEMICAL SOLVENTS THAT CAN EASILY CAUSE DAMAGE TO POLYCARBONATE WINDOWS
- » USE A MICROFIBER TOWEL FOR BEST, STREAK-FREE FINISH
- » TO PREVENT SCRATCHING AND HAZING ON YOUR WINDOWS, NEVER SCRUB WITH BRUSHES OR ABRASIVE MATERIALS

BODY MOUNTING TOOLS, BRACING & ACCESSORIES

PRODUCTS ESSENTIAL FOR A COMPLETE,
PROFESSIONAL LOOKING RACECAR

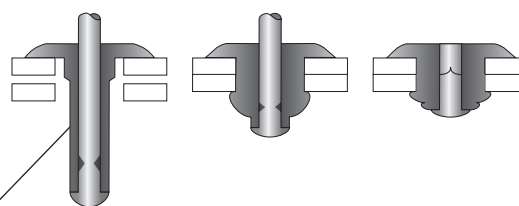

- » **MOUNTING TOOLS:** Ensure a professional body installation and easily replace panels throughout the season with a quick, hassle-free process
- » **UNIVERSAL BRACING:** Support body panels with these lightweight components essential to achieving astounding aerodynamics
- » **ACCESSORIES:** Everything you need to give your racecar that extra finishing touch!

FIVE STAR PREMIUM AVEX STYLE MULTI-GRIP RIVETS

- » Five Star Rivets have a super-tight grip & won't spin while drilling
- » Grip range of up to 3/16" for 1/8" rivets & up to 1/2" for 3/16" rivets
- » Use long shank rivets for fastening fender, door, & windshield post together
- » Sold in quantities of 100 & 500; large head & small head with choice of 1/8" unpainted or 3/16" unpainted, white, black, blue, or red

Provide a secure installation of your body panels with Five Star Rivets & Washers!

Five Star Rivets pull much tighter than other, cheaper rivets.

Washers are oversized to fit with Five Star Rivets and keep rivets tight no matter how much vibration

FIVE STAR PREMIUM WASHERS

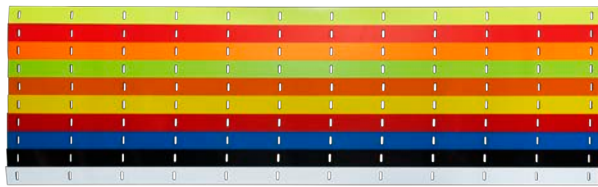

- » Five Star Premium Washers are lightweight & available in 3 sizes
- » Recommended for all plastic & composite body panels to keep them tight & prevent rivets from pulling out

- » Ensures a flush fit and a secure hold every time
- » Not required for precut to fit, beveled, & drilled windows

Drill Bit	805-1	\$19
-----------	-------	------

RIGHT SIDE DOOR SUPPORT

- » Easily adjust your right side door to the proper width
- » This piece connects your right side door bar to your door
- » .080" thick aluminum laser-cut to reduce weight
- » Laser cutting allows for precise, consistent shape & weight
- » Slotted mounting holes allow for easy inner & outer door adjustments to proper width
- » Weighs under 2 lbs

FULLY INSTALLED 11002-75533

Aluminum Door Support	11002-75533	\$30
-----------------------	-------------	------

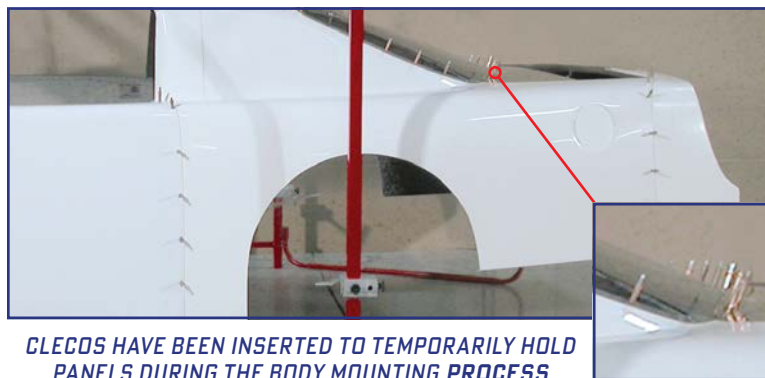

FITS THESE BODY STYLES: ABC NEXTGEN, ABC, S2 SPORTSMAN, NORTH AMERICAN SPORTSMAN, SHORT TRACK TRUCK, DIRT GRAND NATIONAL

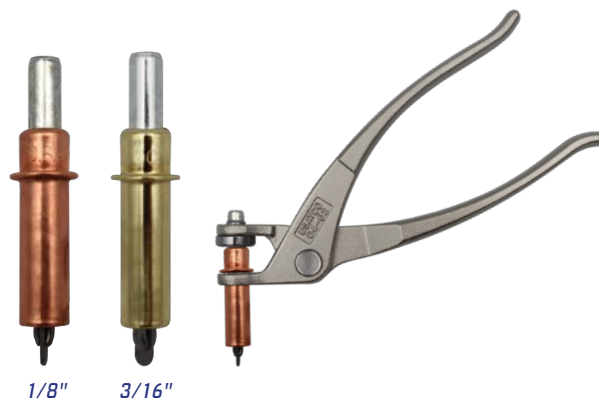

DRILL BIT KIT

- » Special double-ended drill bits
- » These bits drill a slightly larger diameter hole than a standard 1/8" or 3/16" bit to prevent stress cracks in the material
- » The short drill shaft makes drilling in tight places easier
- » Kit includes: 2 9/64" double-ended drill bits & 2 #30 double-ended drill bits

Drill Bit Kit	806	\$18
---------------	-----	------

CLECOS HAVE BEEN INSERTED TO TEMPORARILY HOLD PANELS DURING THE BODY MOUNTING PROCESS

CLECO KIT & PLIERS

- » Precision has never been this easy! Cleco Pliers & Cleco Fasteners ensure perfect alignment every time
- » Clecos can be easily inserted with the Cleco Pliers to temporarily hold panels during the body mounting process
- » Our Cleco pliers are engineered for comfort & built to last, ensuring a secure grip & maximum control
- » Choice of 1/8" 25-piece Cleco Kit or 3/16" 25-piece Cleco Kit

1/8" Single Spade Kit, long	812	\$28
3/16" Single Spade Kit, long	813	\$36

THE PERFECT SURFACE PREP FOR PLASTIC

MD3 ADHESION PROMOTER

FAST DRYING & NON-SANDING

MD3 ADHESION PROMOTER

- » Specifically engineered adhesion promoter assures proper paint bonding to our special plastic
- » Other automotive grade primers on the market may not work at all or cause severe paint flaking
- » Improves adhesion of vinyl by enhancing the bond between adhesive on the vinyl and the substrate, for a more durable, long-lasting application
- » Comes in an aerosol spray can for quick and easy application
- » A single can coats approximately 5 individual parts

MD3 Adhesion Promoter	842	\$16
-----------------------	-----	------

» A MUST USE PRODUCT BEFORE PAINTING OR APPLYING VINYL ON ANY FIVE STAR PLASTIC PART

FIVE STAR PLASTIC WINDOW CLEANER

- » This specially formulated anti-static foaming spray contains no chemicals or abrasives that will cause damage to plastic
- » Lifts grease, grime, and wipes off fast and easy to provide a streak-free clean and clear surface finish

Window Cleaner, 19oz Can	843	\$9.95
--------------------------	-----	--------

» FIVE STAR CLEANING TIPS!

- » ALWAYS AVOID USING ABRASIVE CLEANERS & CHEMICAL SOLVENTS THAT CAN EASILY CAUSE DAMAGE TO POLYCARBONATE WINDOWS
- » USE A MICROFIBER TOWEL FOR BEST, STREAK-FREE FINISH
- » TO PREVENT SCRATCHING AND HAZING ON YOUR WINDOWS, NEVER SCRUB WITH BRUSHES OR ABRASIVE MATERIALS

Five Star Family Values

DRIVE OUR BUSINESS TOWARDS SUCCESS!

» CARL SCHULTZ

» COREY SCHULTZ

» GARRETT SCHULTZ

» HALEY SCHULTZ

» HEIDI SCHULTZ

One of our great sources of pride at Five Star is the fact that we are a family-owned business. Our values as a family help guide our management of the business, and Carl takes great joy in knowing the company he has led to date is in good hands going forward. Each family member takes an active role in the day-to-day operations and looks forward to building on the legacy Carl has built for years to come.

We use the values of the Schultz Family as a guiding philosophy for running the business. These values are as follows:

CUSTOMER FOCUS

Cultivate Lasting Relationships Based on Trust, Reliability & Exceptional Service

EXCELLENCE

Uphold the Highest Ethical & Professional Standards in All Our Actions

DEDICATION

Fully Invest Ourselves in Our Roles, Team & Company

INNOVATION

Strive for Continuous Learning & Improvement in All Aspects of Work

WINNING

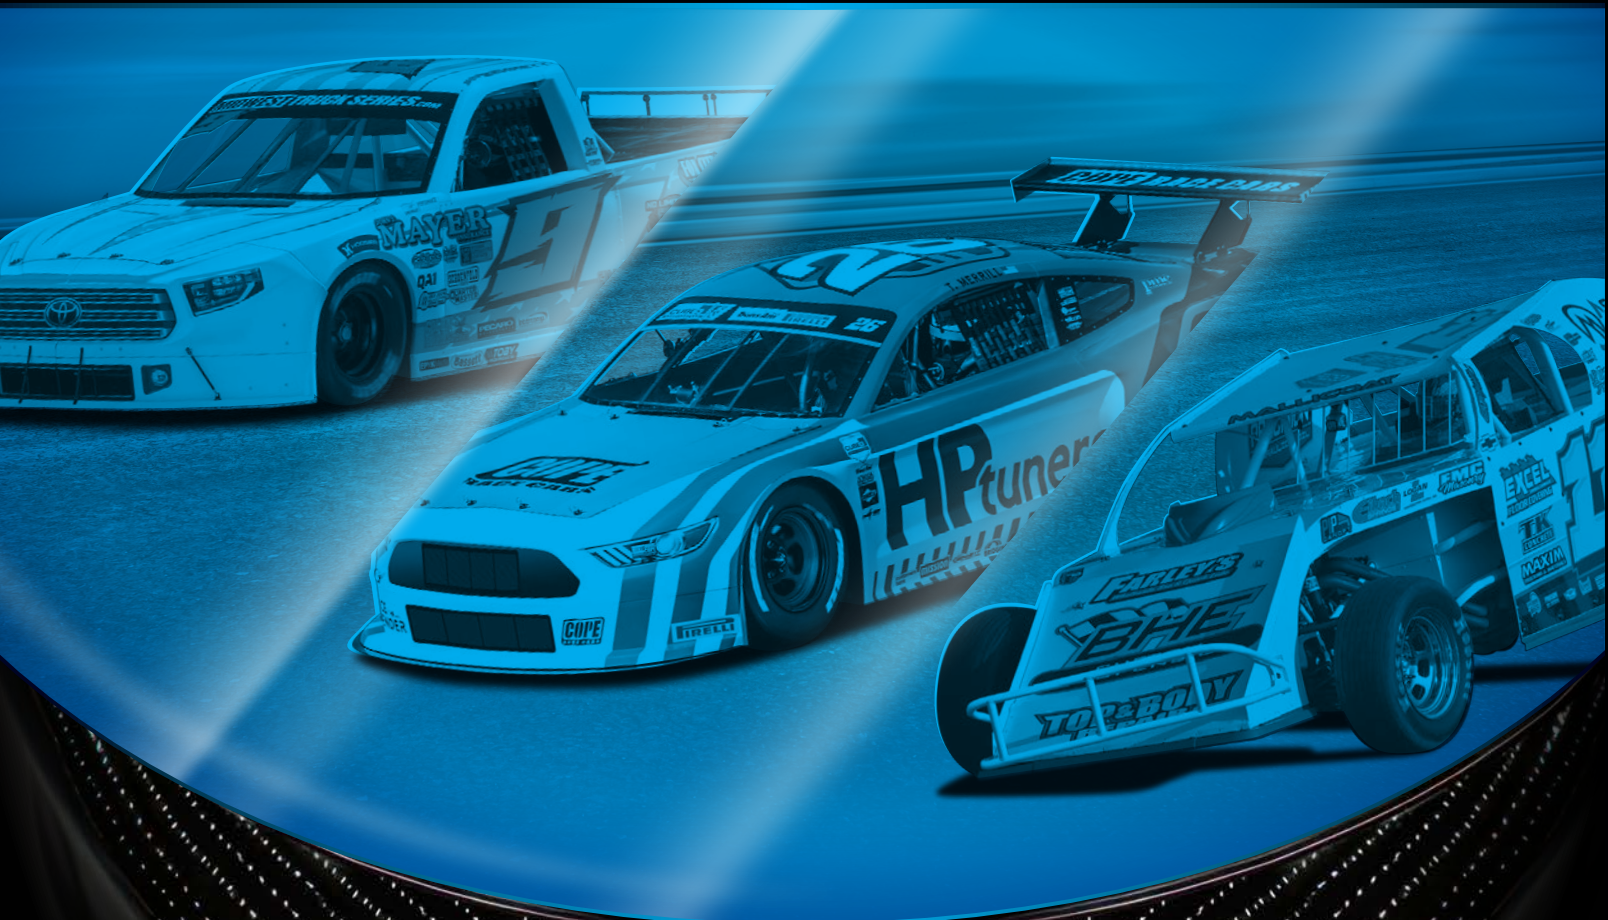

Be Leaders, Not Followers in Every Market We Serve

We are committed to these values and they are reflected in every area of our lives and how we do business. The adoption of these core values is essential to executing our strategy and ensuring a work environment that supports The Company's objectives and inspires employees to new levels of productivity, helping them achieve their professional goals. We are confident in our ability to execute on our strategies making Five Star a fun, rewarding place to work.
