THE MOST ELITE LINE OF RACE CAR BODY PANELS, WINDOWS & COMPONENTS

#HEYNICEBODY

45+ Years of Racing History

YESTERDAY, TODAY & TOMORROW... ALWAYS THE BEST!

Five Star Race Car Bodies, a division of Five Star Fabricating, Inc., was established in the late 1970s by Carl Schultz & Fran Prestay. The company began as a side job for them in response for a need for innovative sheet metal products in the stock car racing industry. From their '79 Camaro body, the product line quickly diversified to include durable thermoformed molded plastics; lightweight fiberglass; and advanced composite race car body components. Through ongoing development we perfected the art of formed windows. Our engineers devised improvements in material composition and coatings, which also led to the development of our own superior line of polycarbonate. Our racing windows are now #1 in all motorsports. As we continue to diversify into new markets, we remain dedicated to maintaining our deep roots in auto racing, by putting our experience & expertise to work for you by providing a complete line of the greatest racing products for years to come.

» *Headquarters*

Our clean and modern 6 building campus spans over 300,000 sq feet of floorspace and is built on 44 acres in beautiful Twin Lakes, WI. This ever evolving facility features the best production equipment & manufacturing processes to achieve the highest standards.

» *'79' Camaro*

Carl & Fran's first production of the 1979 Camaro. Word of mouth and later a small ad in Stock Car Racing Magazine led to a tremendous response from racers across the country.

» *ISO Certified*

Celebrating our 11th year of ISO 9001:2015 Certification. We are proud of the huge gains that made our production processes faster and more efficient while reducing waste along the way. We strive to make our operation better every day. ISO is the American Standard for quality management systems. It is all about delivering top quality to our customers.

» *NASCAR Approved*

We manufacture advanced composite body panels for all four major NASCAR Series and are proud to be an official NASCAR Competition Partner.

» *Trade Show*

Our booth is known for being one of the first stops at the annual Performance Racing Industry Show (PRI), which is one of the largest automotive trade shows in the world. It's where we like to announce our innovative new products every year.

» *The Future*

After 4 decades, Five Star established itself as the leader across multiple motorsports markets. As we strive to stay on the cutting edge in products and service, we're excited to announce a new state of the art distribution facility being built in 2024 in Concord, North Carolina. This facility will serve as our new Dealer Service Center, currently located in Troutman.

Advanced Composites

LIGHTWEIGHT, RIGID & EXTREMELY DURABLE

WHY FIVE STAR IS BETTER!

CUSTOM ENGINEERED MATERIALS

- » Incredibly strong shear & tear resistant
- » Flame retardant resins in most applications
- » Rigid no surface deflection at high speeds
- » Durable parts do not break apart

PRECISION WEIGHT CONTROL

- » Parts made with the tightest weight tolerances

FLAWLESS FINISH

- » Excellent surface finish and wrapped in a protective film

FIVE STAR'S PROPRIETARY FABRIC & RESIN BLENDS ARE MADE WITH A SUPERIOR MANUFACTURING PROCESS THAT MANY TRY TO EMULATE, BUT FAIL TO REPLICATE!

ENVIRONMENTALLY SOUND MANUFACTURING

- » All parts are manufactured in our clean EPA & OSHA compliant facility

EXCELLENT SHAPE TOLERANCE FOR REPEATABLE FIT

- » In house pattern & tool production assures great shape control

— *Ultraglass Composite* —

THE HIGH-TECH ALTERNATIVE TO OTHER FIBERGLASS COMPOSITES

FIBERGLASS PANELS REDEFINED!

UNMATCHED STRENGTH

- » Unmatched impact resistance; no other composite is stronger. Panels that deflect 300% further before breaking equals less debris on the race track and less time in the pits
- » No surface deflection at high speeds

SUPREME FINISH

- » All panels are made with a smooth inner surface
- » Most panels feature a black inner finish to eliminate painting
- » Superior surface finish & wrapped in a protective plastic film
- » Excellent shape tolerance with a repeatable fit

**UNMATCHED PERFORMANCE MANUFACTURED BY FIVE STAR:
OUR EXCLUSIVE ULTRAGLASS COMPOSITE BLEND OUT
PERFORMS ALL OTHER COMPOSITE PANELS
ON THE MARKET!**

ENVIRONMENTALLY SOUND MANUFACTURING

- » 93% reduction in harmful emissions during the manufacturing process
- » All parts are manufactured in our clean EPA & OSHA compliant facility

PRECISION WEIGHT CONTROL

- » Can be lighter than standard fiberglass composite panels
- » Ability to hold much tighter weight tolerances

TESTED TOUGH
THE TOUGHEST AND LONGEST LASTING BODIES!

High-Impact Plastics

UNSURPASSED IMPACT RESISTANCE & DURABILITY

YOU WON'T FIND A BETTER PLASTIC!

ENGINEERED TO WITHSTAND EXTREME CONDITIONS

- » High elongation provides superior flexibility & structural integrity
- » Made with our own state of the art proprietary blend of plastic material
- » Some plastics are fire resistant & pass industry testing standards
- » We match the plastic materials for specific applications

SUPERIOR SHAPE CONTROL

- » Parts are formed using advanced computer automated thermoforming machines with temperature controlled cast aluminum tooling
- » Shaped with even thickness & consistent part weight
- » Consistent shape tolerance allows for easy replacement
- » We match the plastic materials for specific applications
- » Durable parts do not break apart

THIS FEATURED PLASTIC IS USED IN THE MD3 BRAND. THE UNDISPUTED BEST BODY PANELS IN ALL OF DIRT RACING!

EXCELLENT SHAPE TOLERANCE FOR REPEATABLE FIT

- » In house forming assures great shape control

THE MD3 ADHESION PROMOTER WORKS BEST

- » Our MD3 brand Adhesion Promoter is specifically engineered for the special plastic materials we use.

— Polycarbonate Windows —

THE #1 CHOICE BY TOP RACERS & TEAMS WORLDWIDE

SUPERIOR OPTICS & SAFETY!

BETTER THAN GLASS

- » Up to 50% weight savings compared to glass
- » Can be formed into multiple shapes or styles
- » Multiple thickness & tint options available
- » Enhances driver safety

WE CAN SHAPE FORM ANY WINDOW

- » We can meet all of your polycarbonate and acrylic needs, not just racing windows
- » We can form windows from factory glass for limited quantity orders
- » We offer in-house design & mold building for any windows you need
- » CNC pattern cutting

**THE #1 LINE OF WINDOWS USED IN ALL OF MOTORSPORTS
BECAUSE OF IT'S SUPERIOR OPTIC CLARITY
AND UNMATCHED SAFETY!**

PRECISION FIT GUARANTEED

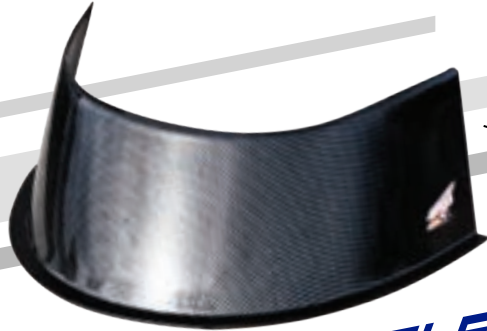

- » Proprietary forming process ensures unrivaled optical clarity and accurate shape control
- » CNC routing ensures a perfect drop in fit, everytime

SUPERIOR OPTICAL CLARITY & DURABILITY

- » We only use the highest Optical Grade Polycarbonate developed exclusively by, and only from Five Star
- » Windows coated with our World-Renowned, high-tech coating process for unsurpassed durability & improved product life.
- » The highest abrasion, chemical & UV resistance
- » Windows printed with a durable black ink boarder

ABC NEXTGEN

THE MOST ADVANCED BODY ON THE MARKET

The ABC NextGen Body is the pinnacle of high-performance engineering, setting a new standard for durability and aerodynamics in the late model racing world. This body is hassle free and easy for any racer to install.

- » Enhanced safety with the use of flame-retardant resin in the Advanced Lightweight Composite greenhouse
- » Minimal trimming required
- » Wider greenhouse increases driver access & accommodates wider roll cages
- » Two-piece greenhouse includes a built-in cowl and deck lid filler
- » Additional engine clearance with more fender clearance for suspension travel
- » Exceptional aero balance achieved and validated through extensive wind tunnel and on track testing
- » All panels have consistent & repeatable fit for effortless installation & replacement
- » Panels have mounting flanges & locating tabs
- » Common body has 3 nose options for brand identity
- » Available in 4 colors

ABC GREENHOUSE STYLE BODY

***TWO-PIECE ROOF CONFIGURATION ALLOWS FOR
PRECISION FIT & ADDED DURABILITY***

The two-piece roof configuration features mounting flanges with built-in locating tabs to speed up installation. This body comes standard with high-impact plastic quarter panels that are durable & easier to replace.

- » Streamlined greenhouse body design for simplified installation, reducing time and cost associated with quarter panel replacement compared to traditional styles
- » Designed to fit templates perfectly
- » Consistent & repeatable fit for all replacement panels
- » Rear window installation made easy and hassle-free
- » Common body has 4 different options
- » Available in 4 colors

FIVE STAR BODIES ARE DESIGNED TO MAINTAIN PRECISE FIT WITH OPTIMIZED AERODYNAMICS!

WIDTHS

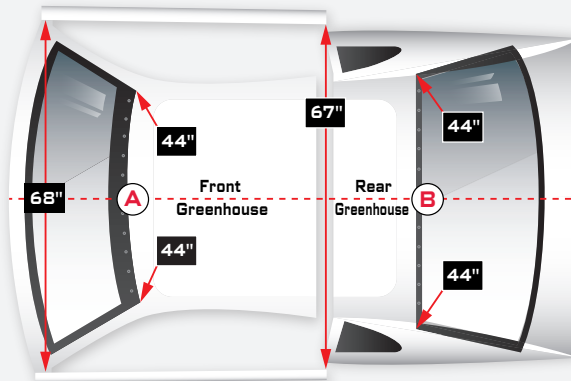

A	B	C
79½" MAX"	68"	67"
Body Width: Measured at wheel wells	Door to Door Width: Measured at A-posts & inside edge of doors, measured through car	Door to Door Width: Measured at B-posts & inside edge of doors, measured through car

NOTES:

1. If the Roof Height (10" back from windshield), Door Height (rear), Quarter Panel, or Bumper Cover Height dimensions are higher than the stated minimum dimensions, all four must increase by the same amount.

2. Must fit centerline template within allowable tolerance. *Measured at the seam of bumper cover at deck lid intersection, +/- 1/4"

CHASSIS	ROOF HEIGHTS	TREAD WIDTH	WHEELBASE
Offset/ Straight Rail	A 47" B 45½"	66" MAX	101-108"

BODY MOUNTING FIXTURES

MOUNT YOUR BODY FAST & EASY TO MAXIMIZE PERFORMANCE & TO PASS TECH INSPECTION!

It is the responsibility of all competitors to present a car that fits the templates within allowable tolerances and meets all dimensions as inspected by the "Referee." Be sure to download a free copy of the Official ABC Rulebook for body styles, panels, spoilers, windows, overhangs, roof height, proper placement of templates, and more!

THE OFFICIAL REFEREE 2.0

- » Used by tracks and associations throughout North America for body tech inspection
- » Measure the front overhang of the nose, tread width, roof, door, and deck height, rear overhang, wheelbase, and engine setback
- » Adjustable laser option for accurate measurements of front overhang and engine setback
- » Magnetic, tinted polycarbonate wheel plates for better attachment to wheels
- » Includes Tech Inspector's checklist
- » **NOT NECESSARY FOR MOUNTING A BODY.** A body can easily be installed within specs by using the body dimensions sheets & templates

Referee 2.0	TT-200-00	\$1,975
Wheel Locator, w/magnets (SET OF 4) (SOLD SEPARATELY)	TT-200-WL	\$98
Laser Measurement Assembly (SOLD SEPARATELY)	TT-200-LB	\$150

VISIT OUR YOUTUBE PAGE FOR A TECH VIDEO DEMONSTRATING USE OF THE OFFICIAL REFEREE 2.0

ROOF LOCATING FIXTURE

- » THE FAST & EASY WAY TO MOUNT YOUR COMPLETE BODY WITHOUT THE CHASSIS UNDERNEATH
- » This time-saving device has adjustable quarter panel arms and makes locating the roof on your chassis a simple process
- » Allows exact fit for wheel opening locations, body dimensions, and inspection templates to fit series specs
- » Pre-fits from the cowl to the bumper cover, then can be lifted easily on top of the chassis for final fit
- » Comes in a black powder-coat finish and includes roof brackets, door height blocks and assembly instructions

Roof Locating Fixture (includes Roof Brackets & Door Height Blocks)	809P	\$875
Replacement Roof Brackets	809-1P	\$71
Replacement Door Height Blocks, 7" tall	809-HB	\$38

NEXTGEN LATE MODEL STOCK

THE MULTI-TIME NATIONAL CHAMPIONSHIP BODY

The NextGen Late Model Stock Car Body is the latest in high-performance engineering, setting a new standard for durability and aerodynamics in the late model stock racing world.

This body is hassle free for any racer to install.

- » Enhanced safety with the use of flame-retardant resin in the Ultraglass Composite greenhouse
- » Exceptional aero balance achieved and validated through extensive wind tunnel and on track testing
- » All panels have consistent & repeatable fit for effortless installation & replacement
- » Panels have mounting flanges & locating tabs
- » Commonly raced in NASCAR LMSC divisions and CARS Tour Series
- » Common body has 3 nose options for brand identity
- » Two-piece greenhouse includes a built-in cowl and deck lid filler
- » Designed to fit perimeter-style chassis
- » Available in 4 colors

PAVEMENT MODIFIED

THE ULTIMATE AERODYNAMIC DESIGN

This body features an aerodynamically superior roof
with built-in vortex generators
to enhance airflow.

- » Rear wheel flares enhance aerodynamics and add rigidity to the side while protecting the tires from being cut
- » Roof has built in vortex generators to enhance airflow
- » Roof design is the easiest to install
- » This roof has a built in cowl panel and separate rear window mounting flange
- » Repeatable fit for all replacement panels
- » Fits most short track modified chassis

FEATURED BODY ACCESSORIES

AIR FILTER DEFLECTORS:

- » Lightweight, high-impact molded plastic deflectors have a sleek aerodynamic design that provides maximum air filter protection
- » Three options to choose from, 3", 5", and 6" height
- » For more details & ordering info page 83

PLASTIC ROCKER PANEL:

- » Aerodynamically designed for the best side force
- » They are easy to mount & add structural integrity to side body panels
- » For more details & ordering info page 84

HIGH-IMPACT PLASTIC WEAR STRIPS:

- » Height adjustable to seal the nose to the track to optimize aero and protection from wear
- » CNC-machined from Five Star's exclusive durable plastic
- » For more details & ordering info page 127

PREMIUM AVEX STYLE RIVETS:

- » Five Star Premium Rivets are known as the best quality on the market
- » Super-tight grip and won't spin out while drilling!
- » Grip range of up to 3/16" for 1/8" rivets and up to 1/2" for 3/16" rivets
- » For more details & ordering info page 126

DIRT GRAND NATIONAL

FEATURED BODY ACCESSORIES

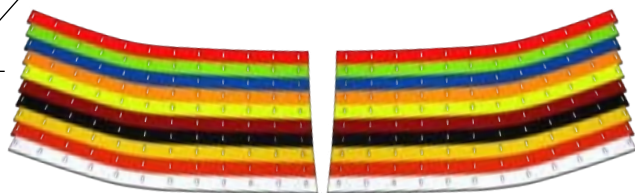

FENDER-TO-NOSE BACK UP PLATES:

- » 4 Piece Kit Includes: 2 Fronts & 2 Rear Plates (ENOUGH FOR BOTH SIDES)
- » Pre-drilled holes in the necessary locations for quick & easy mounting
- » Made of .063" thick aluminum
- » For more details & ordering info page 142

HIGH-IMPACT PLASTIC ROCKER PANELS:

- » Aerodynamically designed for the best side force
- » They are easy to mount & add structural integrity to side body panels
- » For more details & ordering info page 84

HIGH-IMPACT PLASTIC WEAR STRIPS:

- » Height adjustable to seal the nose to the track to optimize aero and protection from wear
- » CNC-machined from Five Star's exclusive durable plastic
- » For more details & ordering info page 127

UNIVERSAL BODY MOUNTING KIT:

- » Everything you need to install a wear strip
- » Universal fit that can be used anywhere on a race car
- » Plastic Kit comes in all black and features Delrin washers that withstand repeated impact and stress
- » For more details & ordering info page 127

» GO TO PAGES 122-145 TO SEE ALL ACCESSORIES FOR THIS BODY STYLE

TA2 ROAD RACING

EXCLUSIVELY DESIGNED FOR TRANS AM COMPETITION

Constructed from premium composite materials, the TA2 Body is the perfect combination of a stock appearance and top-tier performance on the track.

- » Tremendous shear (tear) resistance to withstand impact and prevent body debris
- » The Camaro and Mustang come with a narrow option for European competition
- » Body made of Advanced Lightweight Composite and Ultraglass
- » Flange-fit panels fit flush with no exposed fasteners
- » Repeatable fit for ease of replacement
- » White finish on all parts

PREMIUM RACING WINDOWS

FEATURES & OPTIONS

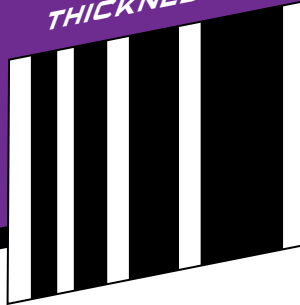

BLACK-OUT BORDER

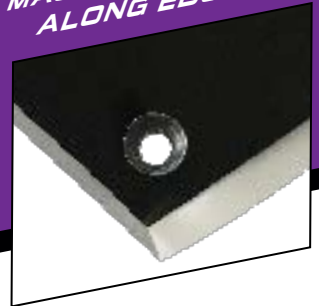

DRILLED & COUNTERSUNK

MULTIPLE THICKNESSES

MACHINE BEVELED ALONG EDGES

MATERIAL:

- » Two Monolithic Polycarbonate options:
 - » Clear - 100% Light Transmission
 - » Tinted - 18% Light Transmission
- » Five Star SafeGuard Laminated Polycarbonate Thickness: 0.093" • 1/8" (0.118") • 3/16" (0.177") • 1/4" (0.236")

COATED OR UNCOATED:

- » Mar-Resistant Coated or Uncoated (Economy)
- » Coated windows last longer and save you money over time
- » Uncoated polycarbonate is cheaper but offers no protection against scratching, hazing, and the damaging effects of UV. Plus, cleaning an uncoated window can cause scratch marks that affect visibility.

EDGE TREATMENT:

- » Edges can be machine beveled and will fit exactly into the window frame

CUT:

- » Oversize: Typically cut 1-1/2 inches larger than the window frame; requires cutting, trimming, beveling and drilling
- » Precut to Fit: Straight-cut to fit exactly into the window frame

INSTALLATION OPTIONS:

- » Option 1: Installation holes are pre-drilled.
- » Option 2: Installation holes are pre-drilled & countersunk

BLACK-OUT BORDER:

- » Professional appearance is printed with ultra-durable, high-quality, scratch-resistant and non-flaking permanent ink.
- » Black-out Borders are available on custom formed windows for higher-quantity production runs only.

BUILD YOUR OWN CUSTOM WINDOWS

» CALL OUR SALES TEAM AT 262.877.2171 FOR YOUR CUSTOM WINDOW NEEDS!

CUSTOM WINDOW SPECIFICATIONS

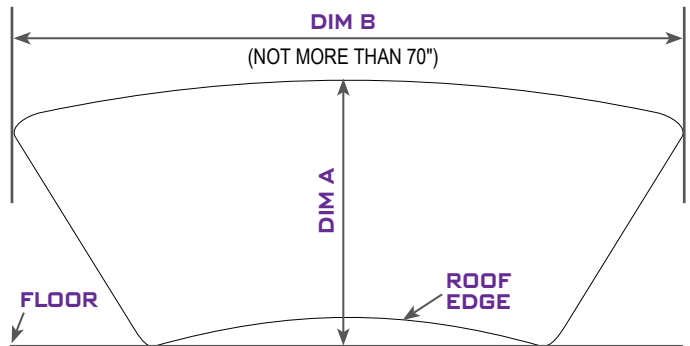

THESE TWO DIMENSIONS ARE NEEDED TO DETERMINE WHICH SHEET TO PURCHASE:

DIM A - THE HEIGHT: Place your window on end upon a level space with the roof edge down. Measure (DIM A), from the floor to the highest point

DIM B - THE WIDTH: Measure across the widest point (DIM B) to be sure that the width does not exceed 70"

- If DIM A is less than 39" use Sheet #1
- If DIM A is 39-47" use Sheet #2

MATERIAL	THICKNESS	SHEET #1	SHEET #2
Clear	.093"	\$317	\$363
Tint	.093"	N/A	\$436
Clear	.118" (1/8")	\$353	\$399
Tint	.118" (1/8")	N/A	\$479
Clear	.177" (3/16")	\$424	\$462
Clear	.236" (1/4")	\$505	\$616

IMPORTANT INFORMATION:

- » Oversized molded sheets are typically 1-1/2" larger than stock (you cut it to fit)
- » Sheets are formed, not flat. Prices on this chart include all forming costs.
- » Contact our Five Star Sales team for complete ordering information, or to determine whether or not factory glass window is needed for tooling purposes

POLYCARBONATE FLAT SHEETS

MAR-RESISTANT FLAT SHEETS CANNOT BE THERMOFORMED! Tint is dark gray with 18% light transmission. Custom sheet sizes are available upon request, and with a minimum order quantity.

Provide a secure installation of your body panels with Five Star Rivets & Washers!

Five Star Rivets pull much tighter than other, cheaper rivets.

Washers are oversized to fit with Five Star Rivets and keep rivets tight no matter how much vibration

FIVE STAR PREMIUM WASHERS

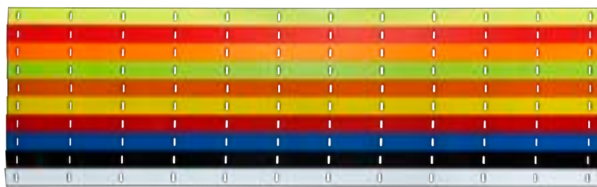

- » Five Star Premium Washers are lightweight & available in 3 sizes
- » Recommended for all plastic & composite body panels to keep them tight & prevent rivets from pulling out

IMPORTANT:
 USING RIVETS APPLIES TOO MUCH PRESSURE TO YOUR WINDOW & WILL FRACTURE THE POLYCARBONATE

WINDOW INSTALLATION KIT

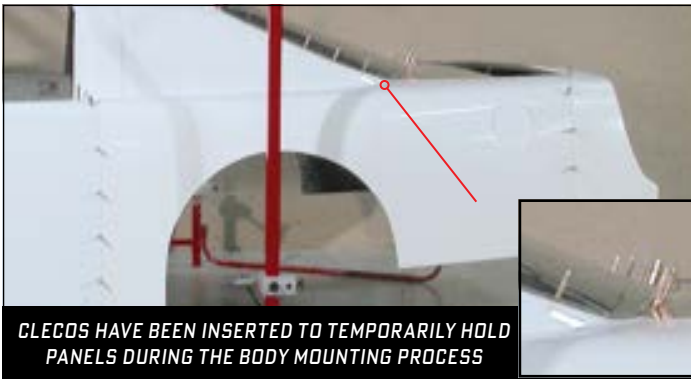

- » Using proper hardware provides the perfect fit & helps to increase the life of your window
- » Black oxide coated to prevent rust
- » Enough hardware to install a complete set of windows on one car
- » **Kit includes:** 120 6-32 1/2" & 16 6-32 3/4" flat head socket screws, 136 6-32 nylon locknuts, 1 long-arm hex key & 9/64" drill bit

Window Installation Kit	805	\$23
-------------------------	-----	------

WINDOW INSTALLATION COUNTERSINK DRILL BIT

- » 3/8" diameter steel bit, 1/4" shank, used for countersinking holes for window screw installation into polycarbonate
- » Not required for pre-cut to fit, beveled, & drilled windows

Drill Bit	805-1	\$19
-----------	-------	------

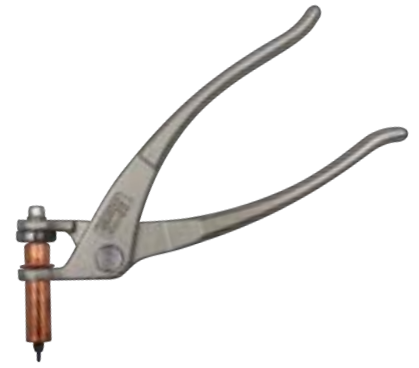

CLECOS HAVE BEEN INSERTED TO TEMPORARILY HOLD PANELS DURING THE BODY MOUNTING PROCESS

1/8"

3/16"

CLECO KIT & PLIERS

- » Precision has never been this easy! Cleco Pliers & Cleco Fasteners ensure perfect alignment every time
- » Clecos can be easily inserted with the Cleco Pliers to temporarily hold panels during the body mounting process
- » Our Cleco pliers are engineered for comfort & built to last, ensuring a secure grip & maximum control
- » Choice of 1/8" 25-piece Cleco Kit or 3/16" 25-piece Cleco Kit

1/8" Single Spade Kit, long	812	\$24
3/16" Single Spade Kit, long	813	\$32
Cleco Pliers	811	\$12

RIGHT SIDE DOOR SUPPORT

- » Easily adjust your right side door to the proper width
- » This piece connects your right side door bar to your door
- » .080" thick aluminum laser-cut to reduce weight
- » Laser cutting allows for precise, consistent shape & weight
- » Slotted mounting holes allow for easy inner & outer door adjustments to proper width
- » Weighs under 2 lbs

Aluminum Door Support	11002-75533	\$30
-----------------------	-------------	------

[DETAILS AND](#)

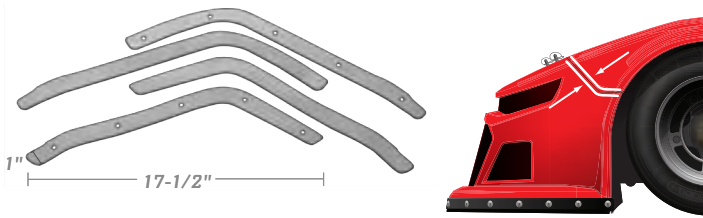

[DIMENSIONS](#)

DRILL BIT KIT

- » Special double-ended drill bits
- » These bits drill a slightly larger diameter hole than a standard 1/8" or 3/16" bit to prevent stress cracks in the material
- » The short drill shaft makes drilling in tight places easier
- » Kit includes: 2 9/64" double-ended drill bits & 2 #30 double-ended drill bits

Drill Bit Kit	806	\$18

000-24B

FOR ABC, LMSC, S2, STRAIGHT-UP METAL, DIRT GRAND NATIONAL

FENDER-TO-NOSE BACK-UP PLATES KIT

- » Reinforces the flange where the fenders mount to the nose
- » Pre-drilled holes in the necessary locations for quick & easy mounting
- » Made of .063" thick aluminum
- » **4-piece kits include: 2 front & 2 rear plates** (ENOUGH FOR BOTH SIDES)

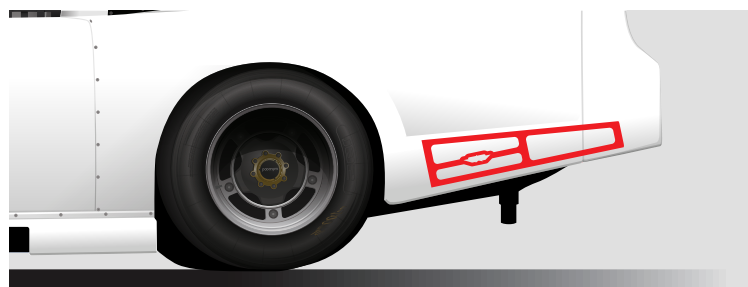

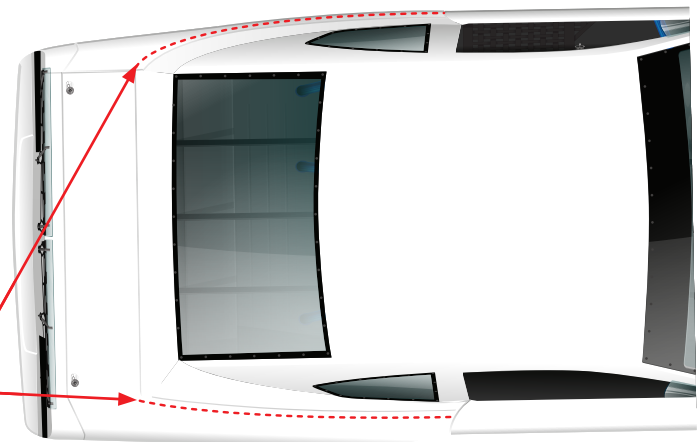

ABC NextGen / NextGen LMSC / NA Sportsman	11002-75133	\$20
Other Body Styles*	000-24B	\$21

*FITS THESE BODY STYLES: ABC, LMSC, S2, STRAIGHT-UP METAL, DIRT GRAND NATIONAL

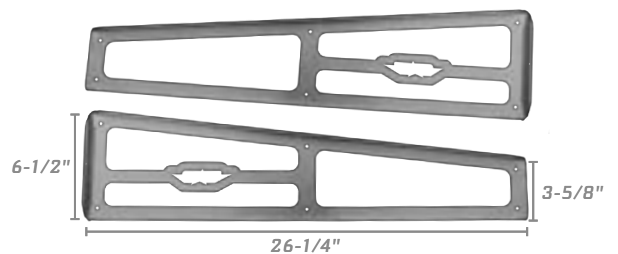

GREENHOUSE-TO-QUARTER PANEL BACK-UP PLATES KIT

- » Reinforce the flanges where the rear greenhouse meets the quarter panels
- » Universal fit for all greenhouse-style quarter panels
- » Each back-up plate is 60 X 1-12"
- » Recommended for molded plastic quarter panels
- » **Kit includes: 2 pre-cut aluminum strips**

2-piece Kit	000-27B	\$7
-------------	---------	-----

WEIGHS ONLY 1 LB

QUARTER PANEL BODY BRACE KIT

- » Stiffens the quarter panel to maintain correct shape in an aero sensitive area
- » Highly recommend bracing for tracks 1/2-mile & longer
- » Laser-cut aluminum braces have pre-drilled holes for brace attachment
- » **Kit includes: 2 braces that mount approximately 6" back from the wheel opening & 2" up from the bottom ledge**

Brace Kit, 2-piece	11002-75433	\$39
--------------------	-------------	------

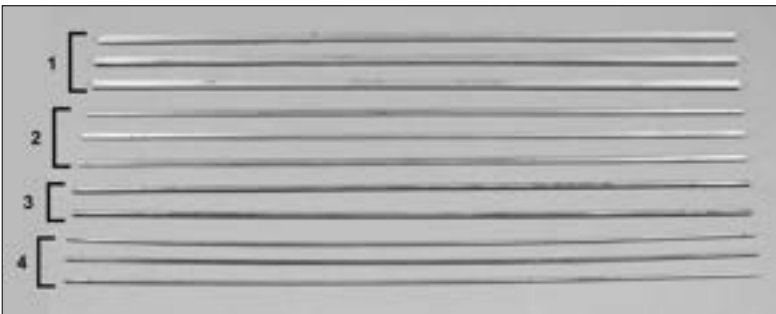

EASY INSTALLATION WITH ENDS SHAPED FOR INCLUDED SCREW KIT OR 2 RIVETS

ADJUSTABLE BODY BRACES

- » Used for spoiler & roof supports & anywhere on your car to fit templates & meet other critical dimensions
- » Easy installation with ends shaped for included screw kit or 2 rivets
- » Adjustable from 8" to 10-1/2" & features durable anodized black finish & zinc-plated hardware
- » Add extra support without adding excess weight! Package of 2 weighs only 1/2 lb
- » Can also be attached to Five Star's Chassis Clamps for quick & easy adjustable bracing on your chassis

Body Braces, 2 pack	807-3	\$35
---------------------	-------	------

Number	Shape	Dia	Thickness	Length
1	(3) round	3/8"	.062"	60"
2	(3) square	1/2"	.035"	60"
3	(2) round	1/2"	.062"	60"
4	(3) square	3/4"	.049"	60"

STEEL TUBING INSTALLATION KIT

- » 55 feet of .035" hard-to-find, lightweight steel tubing for any miscellaneous needs on a race car
- » Will save at least 12 lbs over standard .065" steel tubing
- » Kit includes various shapes and sizes in 60" lengths

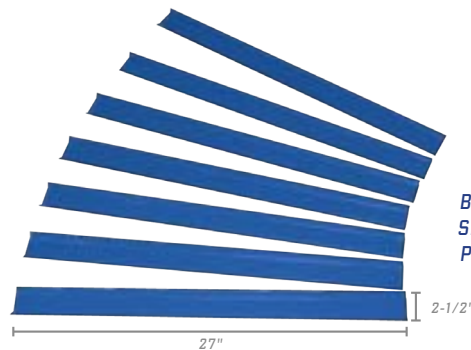

11-pcs: 60" lengths	819	\$79
---------------------	-----	------

FORMED POLYCARBONATE BODY BRACES

- » Universal brace to fit any applicable area of your car
- » Each lightweight brace weighs only 7 oz
- » Absorbs impact & allows body panels to flex upon impact & return to original position & shape
- » Kit includes: 7 clear polycarbonate braces & 14 1"x2" aluminum mounting tabs

Polycarbonate Braces	804	\$30
----------------------	-----	------

BRACES ARE SHOWN WITH PROTECTIVE MASKING

FULLY INSTALLED CUSTOM BRACE KIT

TAP | 807L OR 807R

THREADED END ASSEMBLIES | 807-2

ALUMINUM TUBING | 807-1

ALUMINUM CUSTOM BRACING KIT

- » Build your own custom-length bracing as short as 6" or as long as 40"
- » Order as many tubing kits or end assemblies as needed to custom brace your car
- » Threaded end assemblies can be bolted, riveted, or attached with hose clamps
- » **Complete kit includes:** 1 aluminum tubing kit; 1 threaded end assembly kit; 1 left & 1 right 1/4-20 reusable tap
- » **Aluminum Tubing kit includes:** 2 7/16" x 3' hollow hex rods. Cut to desired length & can be tapped easily
- » **Threaded End Assemblies kit includes:** 2 right and 2 left threaded ends, 2 hose clamps that weighs 7.5 oz

Complete Kit	807	\$68

THE PERFECT SURFACE PREP FOR PLASTIC

MD3 ADHESION PROMOTER

NEW!

FAST DRYING & NON-SANDING

MD3 ADHESION PROMOTER

- » Specifically engineered adhesion promoter assures proper paint bonding to our special plastic
- » Other automotive grade primers on the market may not work at all or cause severe paint flaking
- » Improves adhesion of vinyl by enhancing the bond between adhesive on the vinyl and the substrate, for a more durable, long-lasting application
- » Comes in an aerosol spray can for quick and easy application
- » A single can coats approximately 5 individual parts

MD3 Adhesion Promoter	842	\$16
-----------------------	-----	------

» A MUST USE PRODUCT BEFORE PAINTING OR APPLYING VINYL ON ANY FIVE STAR PLASTIC PART

FIVE STAR PLASTIC WINDOW CLEANER

- » This specially formulated anti-static foaming spray contains no chemicals or abrasives that will cause damage to plastic
- » Lifts grease, grime, and wipes off fast and easy to provide a streak-free clean and clear surface finish

Window Cleaner, 19oz Can	843	\$9.95
--------------------------	-----	--------

» FIVE STAR CLEANING TIPS!

- » ALWAYS AVOID USING ABRASIVE CLEANERS & CHEMICAL SOLVENTS THAT CAN EASILY CAUSE DAMAGE TO POLYCARBONATE WINDOWS
- » USE A MICROFIBER TOWEL FOR BEST, STREAK-FREE FINISH
- » TO PREVENT SCRATCHING AND HAZING ON YOUR WINDOWS, NEVER SCRUB WITH BRUSHES OR ABRASIVE MATERIALS

Five Star Family Values

DRIVE OUR BUSINESS TOWARDS SUCCESS!

» ***CARL SCHULTZ***

» ***COREY SCHULTZ***

» ***GARRETT SCHULTZ***

» ***HALEY DERRICK***

» ***HEIDI SCHULTZ***

One of our great sources of pride at Five Star is the fact that we are a family-owned business. Our values as a family help guide our management of the business, and Carl takes great joy in knowing the company he has led to date is in good hands going forward. Each family member takes an active role in the day-to-day operations and looks forward to building on the legacy Carl has built for years to come.

We use the values of the Schultz Family as a guiding philosophy for running the business. These values are as follows:

CUSTOMER FOCUS

Understanding & fulfilling the needs of our customers to deliver exceptional experiences & build long-lasting relationships.

EXCELLENCE

Fueling individuals to put in the necessary effort and perseverance to succeed.

DEDICATION

Fueling individuals to put in the necessary effort and perseverance to succeed.

INNOVATION

Progress, pushing boundaries, and creating groundbreaking solutions that shape the future.

WINNING

Resilience, determination, propelling individuals to overcome challenges and achieve their goals.

We are committed to these values and they are reflected in every area of our lives & how we do business. The adoption of these core values is essential to executing our strategy and ensuring a work environment that supports The Company's objectives and inspires employees to new levels of productivity, helping them achieve their professional goals. We are confident in our ability to execute on our strategies making Five Star a fun, rewarding place to work.
